2026 CUMT Summer School

Founded in

1909

JUNE 22 – JULY 5, 2026

CUMT

Looking ahead, CUMT is positioned to become a world class university with energy and resource characteristics.

Founded in 1909, the China University of Mining and Technology (CUMT) is one of the key national universities directly under the administration of China's Ministry of Education. It is also a part of the nation's "211 Project" and "985 Project Innovation Platform for Disciplines of Superiority" as well as "Double First-class" Initiative. These are all national programs designed to support and develop top institutions of higher education in China.

Over a history of 117 years, CUMT has developed a multi-disciplinary system with a focus on mineral and mining engineering among other disciplines in sciences, engineering, arts, management and the like. CUMT has 24 schools and faculties, offering 74 undergraduate programs, 56 master's programs and 26 doctoral programs. The University has more than 3500 members of staff, including over 2200 academic staff. The student population is around 39200 including 1000+ international students.

CUMT ranked 59th in the Chinese Mainland (Best Chinese Universities Ranking 2025 published by Shanghai Ranking Consultancy), with Mineral and Mining Engineering ranked 14th (QS World University Rankings by Subject 2025). CUMT has always fostered international exchanges and cooperation with other universities overseas over the past decades. To date, the university has established partnerships with 164 universities worldwide.

About Summer School

The Summer School Program, organized by the International Higher Education Alliance for Mining, Energy, and Environment (AMEE), started as early as 2014. In the past years, CUMT, the main organizer of the program, has always worked hard to bring students the best experience. The combined course modules of engineering and Chinese culture have presented our academic strength by which students really learned a lot, and in the meantime led foreign students to perceive a multi-dimensional China. So far, a total of 407 students from more than 21 universities in 14 countries have participated in this program.

To provide an opportunity for students to know each other and develop friendship, CUMT will continue with this program in 2026 and would welcome students from our partner institutions, the AMEE and the UK-Jiangsu World-Class University Consortium.

What will you get from the Summer School?

Exceptional opportunity to understand the updated knowledge in the fields of Mining and Safety, Advanced Manufacturing and New Energy. It also provides a platform for you to understand the Chinese culture by learning the courses of Contemporary Chinese Economy, Chinese Culture, Art and Cross-cultural Communication.

How?

Send your completed registration form to the point of contact of your university. We will let you know the next-step-to-do after you are nominated by your university. Individual application is not accepted.

Schedule

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
June 21	June 22	June 23	June 24	June 25	June 26	June 27	June 28
Registration	Opening Ceremony	Engineering Related Course & Chinese Culture Related Course				Chinese Culture Excursions	
	June 29	June 30	July 1	July 2	July 3	July 4	July 5
	Engineering Related Course & Chinese Culture Related Course				Closing Ceremony	Departure	

*Engineering related course package includes Modern Mining and Safety Technology, Advanced Manufacturing, etc.; Chinese Culture Related Course package includes Contemporary Chinese Economy, Chinese Culture and History, and Cross-cultural Communication.

*Each course contains 16 class hours of study and all of them will be taught in English. Detailed course information will be sent to the coordinator of partner universities and published on the English website of CUMT in March. The course selection system will also be launched at the end of March.

*Please be advised that you are only allowed to select one course in each course package and get your final marks thereof. However, you are free to attend any other course as auditors.

Chinese Culture Excursions and Immersive Experience

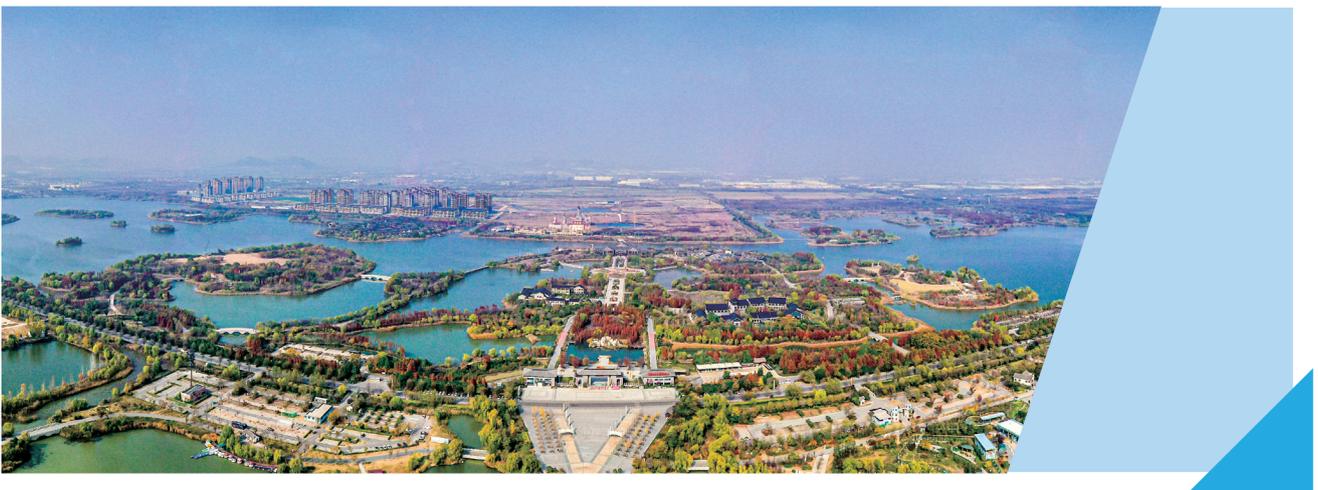

Xuzhou Han culture scenic spot

-- A historic site with a history of 2000 years

Xuzhou Pan 'an Lake Wetland Park

-- An excellent case of ecological restoration on mined land

2026 CUMT Summer School

Schedule

February 10	Release of program Information to partner universities
March 15	Deadline of submitting registration form
March 20	Course selection system opens
March 20 ~ May 20	Apply for visa to China
June 22 ~ July 5	2026 CUMT Summer School

FEES

Each partner institution will be given a certain tuition-free scholarships quotas. Scholarships will cover tuition fees, expenses for accommodation and meals in Xuzhou as well as allowance for Second-class train tickets from the port of entry in China to Xuzhou.
